REFERENCE

on the activities of LLC "Global Water Engineering"
at the Casting and Rolling Complex of JSC "Uzmetkombinat"

From March to July 2025, work was carried out to prepare for the launch of the Casting and Rolling Complex equipped with modern equipment and installations of foreign production, including water treatment systems and circulating water cooling systems. Technical support was provided by LLC "Global Water Engineering" using its proprietary chemical reagents.

The chemical reagents supplied by LLC "GWE" during the commissioning of the water treatment systems proved to be highly effective and compatible, contributing to the conservation of water resources.

LLC "Global Water Engineering" (Republic of Uzbekistan) has established itself as a reliable partner and supplier of chemical reagents for the water treatment facilities of the recirculating water system of JSC "Uzmetkombinat's" Casting and Rolling Complex. The products are used in ultrafiltration and reverse osmosis units, in water cooling circuits of non-contact, contact, open, and closed types, as well as in suspended solids separation systems and reagent dosing systems.

The activities of LLC "GWE" at the site of the Casting and Rolling Complex confirmed the high quality of its chemical reagents and the professionalism of its staff, who provided technical support for the preparation and commissioning of ultrafiltration, reverse osmosis, and cooling systems.

The team of LLC "GWE" conscientiously fulfilled the assigned tasks, including:

- commissioning of water supply systems,
- determination of optimal reagent dosages,
- water quality analysis and standardization,
- ensuring stable technological operation,
- bringing the systems into compliance with operational requirements,
- conducting training, internships, and professional development for personnel operating the water supply systems.

The company demonstrates a high level of compliance with occupational health and safety standards, as well as environmental protection requirements. LLC "GWE" guarantees the consistent quality of its products, strictly adheres to delivery schedules, and provides qualified technical support based on the up-to-date professional knowledge of its specialists.

**First Deputy Chairman of the Board –
Director on production of JSC "Uzmetkombinat"**

R. S. Garaev
